

Exhibit 2

Exhibit 2

During the initial on-scene phase of the Receiver's appointment, Precision Discovery completed the *On-Scene Identification & Collection* of the Project Plan including:

- The identification, documentation, and forensically preservation of *American Pension Services* business Electronically Stored Information (ESI).
- Examiners conducted interview of business employees to assist in transition to the Receiver and to support preservation of ESI data.
- Conducted searches for ESI external sources.
- Provided on-scene review capabilities to assist Receiver.
- Locate and coordinate with third-party computer system administrators.
- Report actions for Receiver and Court review.

Additionally, Precision Discovery examiners completed the *Initial Review of ESI* of the project plan while on-scene, including:

- Cull ESI user data for documents, spreadsheets, accounting, emails, and database files to assist the transition of business to the receiver.
- Production of materials to Receiver in a reviewable format.

Precision Discovery maintains original forensic copies of the data to assist in any further court needs.

Upon return to our laboratory, a forensic case files will be initiated to further assist the Receiver and the Court with the *Advanced Investigation & Review* portion of the project plan.

Please also find attached a spreadsheet listing of digital data obtained thus far.
